PROFESSIONAL SUMMARY

Fullstack Developer with hands-on experience in building modern web and React Native mobile applications, and integrating them with scalable backends. Proficient in Python-based development, SQL database design, and REST API development. Experienced in working with cloud-backed databases, secure authentication, and real-time data systems. Focused on performance, reliability, and user-centric applications.

CORE SKILLS

Programming Languages:	JavaScript, Python, Kotlin, HTML, CSS
Web & Mobile Technologies:	React.js, React Native, Node.js, Express.js, Tailwind CSS, Bootstrap
Android Development:	Kotlin, Jetpack Compose, Room Database
Cloud & Backend:	Supabase, PostgreSQL, .NET Core
Tools & Practices:	Git, GitHub, GitLab, CI/CD Pipelines
Soft Skills:	Teamwork, Problem Solving, Time Management, Technical Communication

EDUCATION

B.E. Computer Science and Engineering

Agni College of Technology, Thalambur, Chennai | 2022 – 2027 (Expected)

HSC

V.O.C Vidyalayaa Metric.Hr.Sec.School, Tamil Nadu | Graduated May 2023

CERTIFICATIONS

- Java Basics – Skillrack
- Full Stack Development – React, .NET, PostgreSQL
- Python Programming – Coursera
- UI/UX Design – Figma Essentials Workshop

PROJECTS

Content Management System (CMS) — Shortlisted at VIT

- Developed a full-stack mobile-first CMS for creating, managing, and publishing digital content
- Implemented secure authentication and role-based access using Supabase
- Built modern UI using Kotlin with Jetpack Compose
- Designed local data storage using Room Database with offline support
- Integrated Supabase PostgreSQL for real-time cloud synchronization
- Followed GitHub/GitLab workflow with CI/CD pipeline for automated deployment

Technologies: Kotlin, Jetpack Compose, Room, Supabase

Old Mobile as Local Web Server (Personal Innovation)

- Repurposed old Android devices into local development servers
- Configured lightweight hosting environments for HTML/CSS applications
- Enabled access over LAN and mobile networks with stable performance

Technologies: Android, Local Hosting, Networking

INTERNSHIP EXPERIENCE

CONPRG Technologies — Web Development Member

Jan 2024 – Present | Chennai, India

Front-End Development Intern

June 2024 – July 2024 | Chennai, TN

Back-End Developer (Web Application)

June 2024 – July 2024 | Chennai, TN

ACHIEVEMENTS

- VIT College — CMS Project Finalist (Shortlisted)
- 2025 Finalist — Smart India Hackathon
- Statathon 2025 — Competed in data-driven problem solving and analytics challenge
- EasyLearnX 2025 — Selected contributor in a collaborative tech learning program
- 2022 Recognition — Innovative Project (Old Mobile as Local Web Server)
